### Club Description

Spanish is the official language of 21 countries worldwide and is therefore one of the most popular spoken languages in the world. Learning Spanish from a young age will help children to increase future opportunities to travel, study and to broaden cultural horizons. In this course children will learn the Spanish language and culture in an interactive and playful way covering basic expressions and vocabulary whilst having fun with these activities: Crafts, story telling, cooking, baking and singing.

The class teacher, Silvia Izquierdo, has been teaching children and adults for many years and she inspires her students to discover the passion for this lovely language. She works for LanguageMasters which is a language school with high-quality standards and a passion for languages. With Silvia, your child will master Spanish!

Thanks to the language school's SMART method © the children will discover, experience and learn a language in a very hands on way.
