Club Description

STEAM stands for Science, Technology, Engineering, Arts, and Mathematics. In today's digital world, early exposure to these topics provides children with essential skills to navigate and succeed in their future endeavors. Using state-of-the-art digital, electronic and crafting tools, our programs provide engaging and pedagogically aligned projects that kids love.

New project for 2026/2027

Theme 1: "Space Engineering" - August 2026 - February 2027

Get ready to design, build, and code with VEX GO and Codey Rocky robots! This exciting hands-on robotics program introduces young innovators to engineering, coding, and problem-solving through engaging, space-themed challenges and creative projects. Students will build robotic models, explore sensors and motors, and learn how to bring their ideas to life using block-based programming. Perfect for beginners and curious young makers! No prior coding experience is required.

Skills children will gain:

- Physical Computing
- Problem Solving
- Robotics
- Design Thinking
